

Reupholstery

We perform high-end reupholstery transformations and cover all aspects of upholstery, residential and commercial. We use only the finest materials, ensuring an elegant, bespoke finish that accentuates your home.

Let us breathe new life into your sofa, suite, dining room chairs or that special individual piece. Allow them to reflect your taste and lifestyle while complementing your décor.

"Change begins at the
end of your comfort zone."

Roy T. Bennett

About Us

Established in 1999, we set out to become the leading upholstery designer and manufacturing organisation in the region. It's a business rich in history, based in Gqeberha (formerly Port Elizabeth) in the Eastern Cape of South Africa. We offer a broad spectrum of clients throughout the region high quality workmanship and service.

Our mission is to have a client centred approach, focusing on premium products using conventional as well as sustainably sourced raw materials to complement our extensive manufacturing knowledge.

Our services range from bespoke furniture design to our core function which is manufacturing and expert upholstery using the finest materials.

Design

Our client centred focus is a priority, from the initial discussion of the design right through to delivery. This ensures that our clients vision becomes a reality and works in their home or workspace.

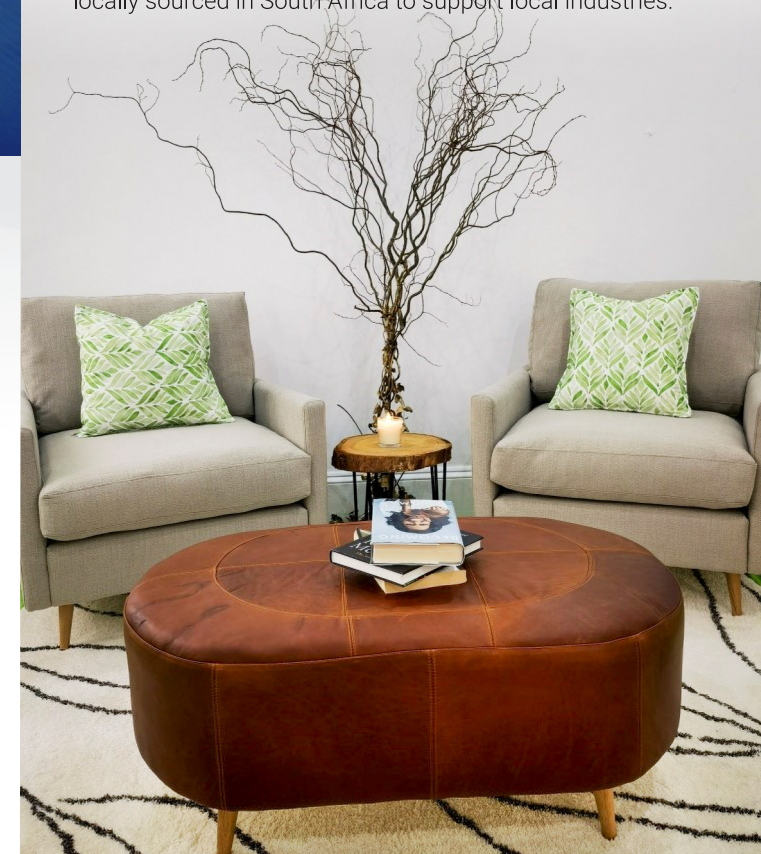

Manufacturing

We are specialists in the manufacturing of bespoke furniture, designed to reflect your personality and style. Our made to measure furniture is created by skilled craftsmen. Their wealth of knowledge and experience is reflected in our exceptional craftsmanship which is the hallmark of our business.

Sustainable Living

Our eco-friendly furniture is kind to the environment, comfortable and luxurious. Re-upholstered in fabric from locally sourced cotton and olefin, it's cosy and durable. All materials used are recyclable or biodegradable and are locally sourced in South-Africa to support local industries.

"Often when you think you are at the end of something, you are at the beginning of something else."

Fred Rogers
